STRATEGIC OBJECTIVE  
-----

¶2. The strategic objective is for the United States to comply with its international obligation to implement the UN arms embargo on Liberia as described in paragraph 2 of UN Security Council resolution 1521 (2003). In that resolution, the UN Security Council decided that all States shall take the necessary measures to prevent the sale or supply to Liberia, by their nationals or from their territories or using their flag vessels or aircraft, of arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for the aforementioned, whether or not originating in their territories. Additionally, the UN Security Council decided that all States shall take the necessary measures to prevent any provision to Liberia by their nationals or from their territories of technical training or assistance related to the provision, manufacture, maintenance or use of the items listed above. To allow for security sector reform, the UN Security Council decided that the arms embargo shall not apply to supplies of arms and related materiel and technical training and assistance intended solely for support of or use in an international training and reform program for the Liberian armed forces and police, as approved in advance by the Liberia Sanctions Committee.
